

Summer Lego Camps

Bricks 4 Kidz Blast off –Junior Robotics Workshop

Cost \$200/pp

Ages: 6 to 9

Dates: July 24 to July 28, Monday to Friday

Time: 9am to 12noon

Location: Southborough Union Building

Min 6/ Max 20

This morning STEAM workshop offers dynamic hands-on learning and fun! Build cool NASA and Star Wars™- themed models, like a lunar rover and a space battle with LEGO® Bricks and motors, and bring them to life with user-friendly, WeDo computer software! We provide the materials and guidance. Just bring your imagination and a nut-free snack/beverage. Includes a daily take-home project.

Bricks 4 Kidz Blast off –Robotics

Cost \$200/pp

Ages: 9 to 13

Dates: July 24 to July 28, Monday to Friday

Time: 9am to 12noon

Location: Southborough Union Building

Min 6/ Max 10

Robotics is the future for our children and what better way to prepare them for the future than with our EV3 robotics summer workshop. This hands on workshop offers LEGO® Technic robot builds your child may have built in our after school classes this past year, however the programming capacity of each model is only briefly touched upon during these classes. Join this workshop and spend an entire afternoon honing your skills with each daily model.
